

SEI Enhanced U.S. Large Cap Value Factor ETF

Fact Sheet / October 31, 2024

Investment Strategy

The SEI Enhanced U.S. Large Cap Value Factor ETF seeks to provide long-term capital appreciation by investing primarily in U.S. common stocks with lower prices relative to fundamental valuation characteristics, as determined by SIMC. Under normal circumstances, the SEI Enhanced U.S. Large Cap Value Factor ETF will invest at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in equity and equity-related securities (such as convertible bonds, convertible preferred stock, depositary receipts, warrants and rights) issued by large U.S. companies.

Investment Philosophy and Process

Value investing is a mean-reverting investment strategy that is based on acquiring assets at a discount to their fair valuation. SIMC uses a quantitative-based, active stock selection investment strategy to construct the fund's portfolio. SIMC's quantitative model and rules-based screening process evaluates all of the securities in the investment universe of U.S. large-capitalization stocks based on various factors, which may include earnings, cash flow, sales, and asset-based valuation characteristics, such as price-to-earnings ratio or price-to-cash flows. The optimization process seeks to build a portfolio with high primary exposure to equity securities of superior value, while concurrently managing secondary exposures to other factors, including momentum, quality and low volatility, in tandem with certain investment restrictions.

Fund Details

Total Net Assets	\$493.07 Million

Risk Information

This information should not be relied upon by the reader as research or investment advice and is intended for educational purposes only. There are risks involved with investing including loss of principal. There is no assurance that the objectives of the Fund will be achieved or will be successful. No investment strategy, including diversification, can protect against market risk or loss. As with any investment, you could lose all or part of your investment in the Fund, and the Fund’s performance could trail that of other investments. The Fund is subject to certain risks, including the principal risks, any of which may adversely affect the Fund’s net asset value per share (“NAV”), trading price, yield, total return and ability to meet its investment objective. Please consider all risks carefully before investing.

Glossary and Important Information

Beta: Quantitative measure of the Fund's volatility relative to the benchmark used. A beta above 1 indicates the fund is more volatile than the overall market, while a beta below 1 indicates the fund is less volatile.

Price to Book Ratio: The most recent price of a security divided by the company's annual fiscal year basis book value per share. Preliminary book value per share figures are used when available otherwise the book value per share is from the most recent fully reported financials. When the denominator is negative, the output is suppressed.

Price to earnings ratio: The most recent price of a security divided by the company's annual fiscal year basis earnings per share. Preliminary earnings per share values are used when available otherwise the earnings per share is from the most recent fully reported financials. When the denominator is negative, the output is suppressed.

Standard Deviation (Absolute): Used to describe historical volatility, a statistical measure of the distance a quantity is likely to lie from its average value. It is applied to the annual rate of return of an investment, to measure the investment's volatility (risk). Standard Deviation is synonymous with volatility, in that the greater the standard deviation the more volatile an investment's return will be. A standard deviation of zero would mean an investment has a return rate that never varies.

Tracking error: The measure of the risk of the portfolio relative to the benchmark.

Weighted Capitalization: The market price of an entire company, calculated by multiplying the number of shares outstanding by the price per share.

To determine if the Fund is an appropriate investment for you, carefully consider the investment objectives, risk factors and charges, and expenses before investing. This and other information can be found in the Fund's full or summary prospectus, which can be obtained by calling 1-800-DIAL-SEI. Read the prospectus carefully before investing.

SEI Investments Management Corporation (SIMC) is the adviser to the SEI Funds, which are distributed by SEI Investments Distribution Co. (SIDCo.) SIMC and SIDCo are wholly owned subsidiaries of SEI Investments Company. For those SEI Funds which employ the 'manager of managers' structure, SEI Investments Management Corporation has ultimate responsibility for the investment performance of the Fund due to its responsibility to oversee the sub-advisers and recommend their hiring, termination, and replacement.

The Russell 1000 Index includes 1000 of the largest U.S. equity securities based on market cap and current index membership; it is used to measure the activity of the U.S. large-cap equity market.
